

## OrderDiscount Installasjon

### 1. Pakk ut filer og kopier til Visma Business mappen.

- a. OrderDiscount.dll
- b. OrderDiscount.dll.config

### 2. Rediger BigComponents.xml til å ha riktige verdier

```
<?xml version="1.0" encoding="utf-8" ?>
<Components>
  <Component>
    <Uri>OrderDiscount.dll</Uri>
    <Namespace>OrderDiscount</Namespace>
  </Component>
</Components>
```

### 3. Rediger OrderDiscount.dll.config til å ha riktige verdier

```
<?xml version="1.0" encoding="utf-8" ?>
<configuration>
  <appSettings>
    <add key="DiscountProductNo" value="2" />
    <add key="DiscountUnit" value="28" />
  </appSettings>
  <connectionStrings>
    <add name="vbConnection" connectionString="Data Source=SERVER;Initial
Catalog=F9999;Integrated Security=True" providerName="System.Data.SqlClient" />
  </connectionStrings>
</configuration>
```
